Science Fair – March 11

Science Fair is fast approaching on March 11th and we need as many students as possible to make this a huge success. This is a noncompetitive fair to demonstrate students' knowledge of science to their teachers, family and friends. Students can work with a partner or alone. Everyone participating should fill out a science fair flier (which will be sent home soon) and return the completed form to school no later than February 26th. Remember to follow ALL the rules in order to make this a science fair safe for all. Questions? please contact Mary McPhail at 483-6977. Hope to see you all there.
